

## **Op Palladium Phase 2 briefing**

Given the complex nature of this case, it is essential that all movements are recorded so that imagery can be analysed. Please retain all material including SD cards. DTS is required on all imagery, please use timestamp camera if using phones at any point. If DTS not available and software if used to add it such as I Sky Soft or I Movie please submit original SD card and matching imagery with DTS, do not delete misfires, image numbers must be continuous.

When submitting SD cards please evidence label with your initials ie: Hayley E SD card 1 will be HE/1 a second card will be HE/2 any copy's with DTS would be HE/1a, HE/2a

When these are sent to Greg at the end of the operation please retain recorded postage receipt for continuity purposes.
